

LEVEL OF SERVICE BY MOVEMENT

Regional Transportation Authority

Level of Service (LOS) is a qualitative description of traffic operations based on estimated traffic delay. LOS A indicates very little delay, LOS E indicates significant delay with the intersection operating at capacity, and LOS F indicates very high levels of delay where traffic demand exceeds capacity. LOS D is generally considered reasonable for urban intersections.

AM Performance Statistics
 Total Delay (hr): 56.0
 Delay/Vehicle (s/veh): 41.8
 Total Stops: 3,305
 Stops/Vehicle: 0.68
 Total Vehicles: 4,821

PM Performance Statistics
 Total Delay (hr): 93.0
 Delay/Vehicle (s/veh): **75.7**
 Total Stops: 4,624
 Stops/Vehicle: 1.05
 Total Vehicles: 4,439
