

A Landscape Shaped by Place

Sonoran Desert plants bring local character and seasonal interest to the roadway.

Every Drop Has a Purpose

Green stormwater infrastructure captures and directs runoff into planted areas, helping support the landscape while reducing runoff leaving the roadway.

Infrastructure With Identity

Public art can express the character of the community and create a more recognizable corridor.

COMPLETING THE VISION

Broadway Boulevard to Tanque Verde Road

The last piece of the Houghton Road corridor that extends from Interstate-10 to Tanque Verde Road
